

Download 7Zip 32bit http://www.filehippo.com/download_7zip_32/

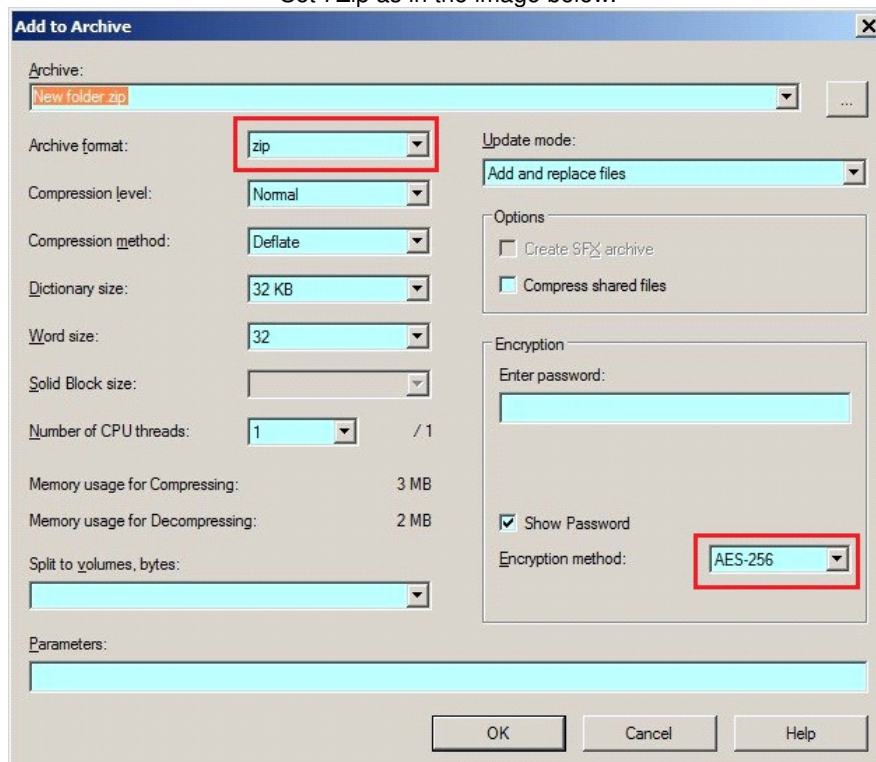

Download 7Zip 64bit http://www.filehippo.com/download_7zip_64/

Right click your folder.

Select '**Add to archive**' if you only want to compress it before saving the folder, or '**Compress and email**' if you want to send in an email. If the folder includes photos or pictures, they don't need to be resized before sending.

Set 7Zip as in the image below.

It can also be password protected by entering a password.
