

## ESET NOD32 Online Scan

**Make sure you are using an account that has Administrative privileges.**

Vista - W7 users: You will need to right-click on the IE or FF icon and select "Run as Administrator" from the context menu.

If your using Mozilla Firefox you will need to download "esetsmartinstaller\_enu.exe" when prompted... then double click on it to install.

**Please temporarily disable your Anti-virus real-time protection as it could impact the online scan.**

Please go to <http://www.eset.com/home/products/online-scanner/> to run an online scan.

Press the "ESET Online Scanner" button.

Check the box next to "YES, I accept the Terms of Use."

Click "Start"... a window will open... it may appear nothing is happening... please be patient.

Click Yes... at the run ActiveX prompt (if using IE). Click Install... at the install ActiveX prompt.

Once installed, the scanner will be initialized.

**Before you click "Start".**

Make sure that the option: 'Remove found threats' and the settings under Advanced are CHECKED.

Scan for potentially unwanted applications

Scan for potentially unsafe applications

Enable Anti-Stealth Technology

Click "Start"... ESET scanner will begin to download the virus signatures database.

When the signatures have been downloaded, the scan will start automatically.

Wait for the scan to finish... it may take a while... please be patient.

**Remember to enable your Anti-virus protection when completed.**
