

Log in to your Hotmail or Outlook.com account.

Select as below.

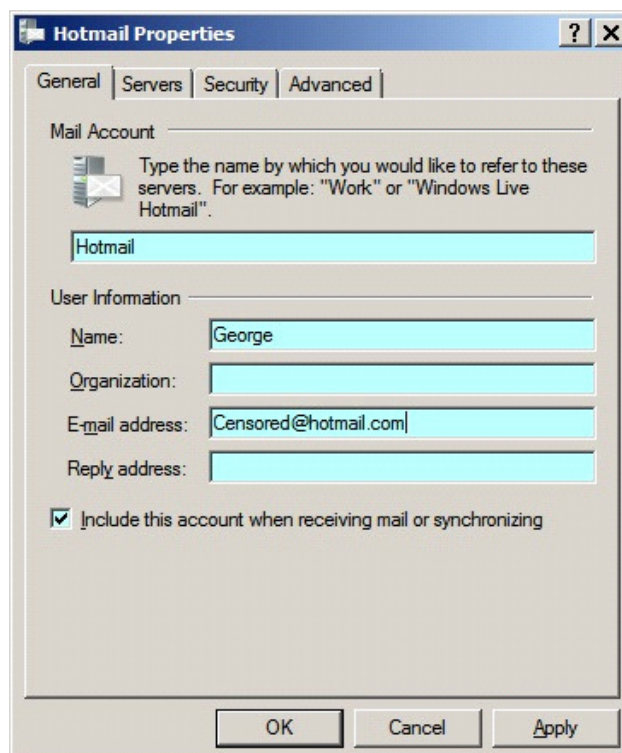

The screenshot shows the 'Options' window in Outlook, specifically the 'Managing your account' section. The breadcrumb trail at the top reads 'Inbox > Options'. The list of options includes: 'Account details (password, addresses, time zone)', 'Your email accounts', 'Import email accounts', 'Email forwarding', 'Sending automated holiday replies', 'Connect devices and apps with POP' (highlighted in yellow), 'Create an Outlook.com alias', 'Aliases: manage or choose a primary', and 'Upgrade to Ad-free Outlook.com'.

Set as below.

The screenshot shows the 'POP' settings dialog box. Under the 'POP' heading, the 'Enable' radio button is selected. Below this, the 'Deleting downloaded messages' section contains an explanatory text and two radio buttons: 'Don't let devices or apps delete messages from Outlook.com...' (unselected) and 'Do what the device or app says - if it's set to delete messages, delete them.' (selected). At the bottom, there are 'Save' and 'Cancel' buttons.

Set Windows Live Mail as below.

The screenshot shows the 'Hotmail Properties' dialog box in Windows Live Mail. It has four tabs: 'General', 'Servers', 'Security', and 'Advanced'. The 'General' tab is active. It contains sections for 'Mail Account' (with a text field containing 'Hotmail') and 'User Information' (with fields for Name: 'George', Organization: (empty), E-mail address: 'Censored@hotmail.com', and Reply address: (empty)). A checkbox 'Include this account when receiving mail or synchronizing' is checked. At the bottom are 'OK', 'Cancel', and 'Apply' buttons.
